Help Your Customers Safeguard Their Investment!

Create goodwill with your customers and patients by adding "If Found, Please Return To" labels on every eyeglass case that leaves your practice.

Affordable custom foil printed labels will pay for themselves with repeat sales.

For best application on eyeglass cases, we suggest the use of Laminated Gray, Blue or White Cloth, Clear Acetate or Polyester.

It's easy to write on laminated and polyester labels with our fine marking pens, see page 39.

Short print runs available, minimums start at 1000 labels.
For shapes, sizes and colors, see pages 14 & 15.
Pricing refer to page 17.

A Personal Touch That's Sure to Get Noticed!

Custom printed pressure sensitive labels are a cost effective method of increasing your sales!

Your store's name deserves repeating... display it prominently to customers before they buy and again to prospective customers on every eyeglass case and accessory that leaves your store. **Laminated** labels provide a scuff resistant surface for a richer appearance and protect the foil printing. **Don't lose sight of your most unique asset... your name!**

See pages 14 and 15 for shapes, sizes and colors.
For pricing information, see pages 16 and 17.
Short runs available, minimums start at 1000.

Arch Crown Policy for Custom Printed Products

CUSTOMER SUPPLIED ART – Since we will follow your exact specifications in preparing your tag/label, the copy should be typed or hand printed so that it is clean and error free. In the absence of exact specifications, our artists will use their best judgment in designing your tag/label. Camera ready art is required for logos (please mail or e-mail, do not fax original art).

COMPUTER ARTWORK – Artwork can be submitted on either a CD, DVD or via e-mail to: orders@archcrown.com. Save images as a tif, jpg, pdf or eps file in PC format. **When compiling files be sure to embed all fonts and include a hard copy.**

CHANGES – Changes in quantities, copy, color or stock can be made prior to printing. These changes may require an additional charge.

PROMOTIONAL RIGHTS – We reserve the right to use any tags or labels which have been printed by us in promotional and advertising materials unless notified prior to printing your order.

RETURNS – All returns must be authorized in advance and accompanied by a return authorization number. Unauthorized returns will not be accepted.

DIE SHAPES NOT SHOWN – Other shapes & sizes are available. Please contact a sales representative for further information. New custom dies are available at an additional cost.

PROOFS – A black and white pdf proof will be emailed. Can be mailed or faxed upon request at no extra charge. Press proofs are available at \$150.

CANCELLATIONS – There is no charge for orders cancelled before art or typesetting has started. However, there will be no refund on plate and/or mold charges for cancellations received after art or typesetting has begun.

There can be no cancellations after the job has been printed.

How to Order Custom Printed Op-Tags™ and Labels

Be sure to follow these easy steps when ordering.

- Choose the die shape you want to use, see pages 14 and 15.
- Select the imprint color and background material, see page 15.
- Select the typeface font desired, see page 17.
- Select the border style, see page 17.
- Stock illustrations available, see below.
- Customer supplied art, see above Arch Crown policy.
- Fax your sketch to us: 973-731-2228 or send via e-mail: orders@ArchCrown.com
- To contact a sales representative, call toll free 1-800-526-8353 or 973-731-6300.

Stock Illustrations for Custom Printed Products

Please choose one and indicate your selection by number when ordering. There's no additional charge for this service.

NEW! Compliance Op-Tags™ and Static Cling Vinyl Labels

Pre-printed California Proposition 65 "WARNING" Op-Tags™ and static cling vinyl labels for eyewear that contain chemicals which require notification under Proposition 65 compliance regulations.

Pre-printed Style 217 "WARNING" labels are black on clear static cling vinyl. Static cling vinyl labels can be reapplied many times without losing static cling or scratching the lenses. Pre-printed Style 830 non-slip Op-Tags™ are black on white plastic and stay in place keeping your displays neat and professional. Op-Tags™ are excellent carriers for bar code and other computer labels. Both pre-printed styles are available in three "WARNING" versions.

The California Office of Environmental Health Hazard Assessment has established a website to provide the public and businesses with information on Proposition 65 warnings.

Computer Tag and Bar Code Labeling Systems

Bar code technology solutions for frame pricing.

Thermal transfer printers, scanners, bar coding software, portable data collectors and computer tags allow for maximum efficiency in your warehouse, stock room and at the register.

Arch Crown Computer Tag and Label Systems are available for thermal transfer printers (pages 22 - 37) and dot matrix pin-feed printers (page 38). You'll find the same quality and value in these systems as you do in the tags and labels that have made Arch Crown a leading supplier to frame dispensing opticians and optometrists. We work with most software companies (page 36) developing efficient and customer friendly price tagging/labeling systems.

Designed for all thermal transfer printers including Citizen, Datamax-O'Neil, Godex, Sato and Zebra.

- High quality, tear resistant, Poly-Lam and Kimdura®.
- Poly-Lam is laminated and stronger than polyester or Kimdura® material with superior print quality and durability and can withstand cleaning (type and bar code images will not rub off).
- Computer string tags are designed with a string-like tail and adhesive free loops for easy tagging.
- As a special service, thermal transfer tags are available on 1", 1½" and 3" cores, please specify when ordering.

We will re-roll tags to fit most printers at no charge!

Arch Crown can assist you in all your computer tagging requirements.

SAVE! QUANTITY DISCOUNTS AVAILABLE see pages 26-31, 38

How to Order Thermal Transfer Computer Tags & Labels

Be sure to follow these easy steps when ordering.

- Choose the tag/label you want to use. **NOTE:** Printer model and core size required.
- Make sure that the width of the tag/label will fit on your printer.
- Check core size for the labels required for your printer (inner diameter of the core)
 - ✓ Most large Zebra and Citizen printers take 3" cores.
 - ✓ Datamax I-CLASS and M-CLASS Series, Allegro, and Prodigy take 3" cores.
 - ✓ Datamax E-CLASS, Ovation, Zebra 2844 and GC/GK/GX Series, Citizen621, GODEX EZ & RT Series and SATO/Argox OS-214/A-200 printers take 1" cores.
 - ✓ Cognitive Blaster Advantage and SATO CX/CG/WS Series takes 1 1/2" cores.
- Please note:** Labels ordered on cores smaller than 3" will be supplied on 2 or 3 rolls. You will receive the same quantity of labels as supplied on a 3" core.
- Ribbons are printer and material specific and may not work if not ordered correctly.

When ordering, be sure to measure the inside dimension of the core.

Datamax-O'Neil Advanced and Industrial Printers

The E-Class™ Mark III-A thermal transfer printer is the ideal choice for eyewear tag and label printing.

The Datamax-O'Neil E-Class™ Mark III-A Advanced model is economical to operate, requires minimum power, reduces material waste, easy-to-install, easy-to operate, and can lower your material costs. Unlike most desktop printers in this category, which use 100-meter ribbons, the E-Class™ Mark III-A can use ribbons up to 300 meters in length. The longer ribbons are more economical than shorter ribbons and save time with less media change over.

The E-Class™ Mark III-A is easy-to-use with an accessible print mechanism for quick media loading, a large graphic display, an array of communication options, language emulation software and Windows® drivers that simplify the installation. It can hold a larger ribbon and media roll, plus its design and small footprint makes the Mark III-A ideal for high quality labeling.

Advanced model comes with Serial, USB, Parallel, Ethernet communication ports, faster print speed up to 5 inches per second, adjustable media sensor and can print labels up to 4.25 inch wide at 203 DPI.
